

# FAIR OF COMMUNITY AT ROSHOLT PROVES TO BE BIG SUCCESS

Thousands of People From Many Sections Attend Exposition There on Monday and Tuesday

A community fair that was equal to and better than most county fairs was concluded at Rosholt last evening. The village residents and farmers of adjoining territory cooperated in the holding of a fair in which many fine exhibitions and plenty of entertainment was provided.

The fair was on at Rosholt on Monday and Tuesday. No admission to the grounds was charged and several thousand people attended on both days.

The town of Harrison, Marathon county, had a booth at the fair and was awarded first prize. The town of Alban's booth was awarded second prize, the town of Franzen in Waupaca county won third and Rosholt village's booth was given fourth.

These booths consisted of exhibitions of vegetables, canned goods, grains in the sheaf and threshed, fruit, and various other agricultural products. There was a large booth which was used for the exhibiting of entries by individuals, and this was completely filled with agricultural products. Thirty stacks of corn, many of the stalks 14 and 15 feet in height, were exhibited. There was a booth in which all kinds of fancy work was shown by women of the adjoining country.

On Monday talks were given by W. W. Clark, state supervisor of county agents, O. W. Neale and County Agent H. R. Noble of Stevens Point. On Tuesday Prof. L. F. Graber of the college of agriculture spoke.

Rosholt merchants had 12 booths in which they exhibited merchandise from their stores. An airplane gave exhibitions and there were baseball games on both days. The Iola band furnished music during the fair. At night the grounds were lighted by electricity and various entertainment offered.

People attended the fair from all sections of Portage, Waupaca, Marathon and Shawano counties.

## HEAVY SOO BUSINESS

Four Specials Run and 8,000 People Travel on South End

Approximately 8,000 vacationists were hauled to Chicago from points south of Waukesha on Labor day over the Soo line. Every train was crowded with people returning from the lakes and resorts to their homes in Chicago. Four special trains were run to Chicago from Waukesha Monday. This was practically the windup of the vacation specials, as nearly all of the vacationists from Chicago and Illinois return to their homes by early September.

## TUBERCULOSIS TESTING SOON TO BE STARTED

Clark, Wood and Green Lake Counties Are Among the First on the List

Madison, Wis., Sept. 5.—Area test work for eradication of bovine tuberculosis under the Schumann anti-tuberculosis bill passed at the 1922 legislature will begin within a week. Dr. V. S. Larson, newly-appointed head of the livestock sanitary division of the department of agriculture, announced today.

Under this bill \$500,000 is available each year for the next two years, according to Dr. Larson, who formally took office on Tuesday. This will be sufficient to apply the area test to about 16 counties. The sixteen counties who first placed their petitions before the department of agriculture will be the ones which will receive the tests.

To secure area tests for a county it is necessary to place petitions before the department of agriculture, signed by 60 per cent of the farmers in the county.

The counties in the order in which they will be tested are as follows:

- Florence, with an estimated 2,007 cattle; Taylor, with an estimated 20,000 cattle; Clark with 8,000; La Crosse with 40,000; Juneau with 31,000; Wood, with 41,000; Monroe, with 50,000; Polk, with 55,741; Jackson, with 40,153; Door, with 27,537; Green Lake, with 25,781; Buffalo, with 52,112; Burnett, with 12,509; Forest, with 4,012; St. Croix, with 77,671, and Shawano, with 56,878.

It is thought that all these cattle can be tested within the next two years and a number of counties which have been previously tested can be retested, according to Dr. Larson.

At the present time the force of 11 men under the livestock sanitary division is engaged in re-test work in Barron county. Before the end of the week they expect to have completed this work. It may be possible that they will do all re-testing necessary in Lincoln county before beginning the new area work but this is not probable, according to Dr. Larson.

"We are very anxious to start at the new area test work," Dr. Larson said. "Within a few days I am going to join the field workers and gain a more intimate knowledge of the work which is before this department."

Dr. Larson explained that it might be impossible to take the counties exactly in the order listed above for the area work but as nearly as possible without necessitating too much traveling about the state the order in which the petitions were signed was placed before the department of agriculture would be adhered to.

## FAIR LOSES \$50,000

As It Rained Almost Every Day Management Thinks That That is a Pretty Fair Showing

Madison, Wis., Sept. 5.—For the first time in the history of the state fair, the books have been balanced without the difference of a cent. State Treasurer Solomon Levitan announced today.

In spite of the fact that it rained nearly every day of state fair week the monetary loss this year is less than that of 1922. The loss this year amounted to \$50,708.70 with receipts totaling \$151,708.70 and disbursements \$211,471.70.

An innovation at the state fair this year was a banking department for the convenience of fair visitors, under direction of the state treasurer's office. Although checks totalling \$25,000 were cashed for visitors who ran short of money there was no loss from this service, Levitan reported today, after a check-up.

The fair netted about \$3,000 more this year with Saturday the big day. Receipts for Saturday were \$26,607.25 with expenditures running to \$72,841.50. Monday was the lightest day with receipts of \$8,462.35 and disbursements of \$5,029.70.

The legislature as in the past will probably be called upon to make up the deficit resulting from the state fair. If it had not been for the rainy weather officials believe that they would have come out without a deficit.
